## **Community Relations**

### **Concept, Goals and Roles in Community Relations**

The Board of Education recognizes that the community, defined broadly as the state and specifically as the area served by the school system, determines the quality of local education. It is imperative that members of the community and the school personnel cooperate in planning, developing policy, implementing programs and evaluating results.

School-community relations are not merely reporting and interpreting. Rather, they are part of a public enterprise in which community members and school personnel play their respective roles in the best interests of the school district.

The Board of Education establishes the following goals for the community relations program:

1. To increase public understanding of the school system.
2. To increase community confidence, interest and participation in the school system.
3. To promote effective dissemination of information concerning school activities.
4. To solicit community opinions about the school system.
5. To encourage the sharing of resources among civic and community organizations for the benefit of the school system

## Community Relations

### Communications with the Public

**General.** The Board of Education believes it is important to inform the public about school curriculum, programs, and activities so citizens can participate in these programs. Concurrently, the school staff, administration, and Board of Education should be aware of the community's goals and concerns for its children so they may be given consideration in curriculum, program, and activity revisions.

To this end, the Board supports and encourages various means such as publications, press releases, open houses, and other public events to disseminate school district information and to hear from the community.

**The Community Relations Program.** The community relations program shall be a concurrent responsibility of the Board of Education and the Superintendent of Schools. The Superintendent of Schools shall work with members of the Board of Education to conduct an active and comprehensive informational program throughout the school district.

Staff members shall be kept informed of community relations efforts, and their support and participation in such efforts shall be sought.

**News of Board of Education Meetings and Activities.** The Board of Education believes in the widest possible dissemination of news concerning the school and shall cooperate fully with the press, radio, and television to assure that news coverage is complete, balanced, and accurate.

It should be made clear to anyone wishing to review the minutes that they are unofficial until approved by the Board of Education. Minutes will be made available on-line following the Board's approval or in our Business Office.

### News Media Relationships

Because schools are public institutions serving the educational needs of the community, it is important that information be disseminated concerning programs, activities, and significant school events. To ensure that this publicity be given wide coverage and coordinated with a common effort and purpose, the following procedures shall be followed with news media:

1. The Board of Education President shall be the official spokesperson for the Board. The Superintendent of Schools may report on actions of the Board.
2. News releases of a system-wide nature, or which pertain to established school system policy, are the responsibility of the Superintendent and will be issued through his/her office.
3. News releases which are of concern to only one school, or to an organization of one school, are the responsibility of principals. Principals should coordinate with central office.

Board meetings to which the public has access may be photographed, broadcast, or recorded for broadcast by any newspaper, radio broadcasting company, or television broadcasting company, subject to the following guidelines:

1. News media personnel who intend to photograph, broadcast, or record for broadcast the proceedings of any public meeting of the Board of Education shall provide appropriate identification to the Superintendent of Schools, if requested by the Superintendent, prior to said meeting of the Board.
2. Any photographer, broadcaster, or news journalist authorized as an employer or student news medium to photograph, broadcast, or record for broadcast, proceedings at a public meeting of the Board of Education, and any personnel associated with said photographer, broadcaster, or news journalist, shall photograph, broadcast, or record for broadcast proceedings of said meeting as inconspicuously as possible and in such a manner which doesn't disturb proceedings.

## Community Relations

### News Media Relationships (continued)

3. If, in the judgment of the President of the Board of Education, the presence at a Board meeting of any photographer, broadcaster, or news journalist causes such disruption that orderly conduct of the public business at such meeting becomes unfeasible, access by these individuals may be limited to the extent necessary to remove disruption.
4. Information released to the media shall be that which is public information as covered by statute. It is recognized that there is information of a confidential nature which shall not be released.
5. The principal has the right to restrict interaction with students on school property if he/she deems it interferes or disrupts the educational process.

### **Community Involvement In Decision-making**

Education, more than any other single force, will mold the citizens of the future. The school community is a vital and integral partner in this important task.

**Parent and Community Involvement**

The Board of Education believes that a child's education is a responsibility that is shared by family, school and community with parents being full partners in making decisions that affect their children.

The district Parent Involvement Policy is governed by the following statutory definition, and expects all schools to carry out programs, activities and procedures in accordance with the following definition:

*Parental Involvement means the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring that parents:*

- 1. Play an integral role in assisting in their child's learning*
- 2. Are encouraged to be actively involved in their child's education at school*
- 3. Are full partners in their child's education and are included, as appropriate, in decision-making and on advisory committees to assist in the education of their child;*

The school district will put into operation programs, activities and procedures for the involvement of parents in all of its schools. These programs, activities and procedures will be planned and operated with meaningful consultation with parents of participating children.

To the extent practical, the school district and its schools will provide full opportunities for the participation of parents with limited English proficiency, parents of children with disabilities, and parents of migratory children, including providing information and school reports required in an understandable and uniform format and, including alternative formats upon request, and, to the extent practical, in a language parents understand.

The school district will ensure that parents of children served in Title I, Part A schools are involved in decisions about how funds reserved for parental involvement are spent, and will ensure that not less than 95% of the one percent reserved goes directly to the schools.

**Parent and Community Involvement (Cont'd)****Parent Involvement Policy (Regulations)**

The district will implement the required district wide parental involvement policy components as follow:

1. The Bridgeport Public Schools will take the following actions to involve parents in the joint development of its district wide parental involvement plan:
  - A draft of the policy will be presented to the PTO Presidents' Council for review
  - Each PT President will gather feedback from their schools
  - Adjustments will be made based on feedback
  - Final policy will be presented to PTO Presidents' Council for approval
2. The Bridgeport Public Schools will provide the necessary coordination, technical assistance, and other support to assist schools in planning and implementing effective parental involvement activities to improve student academic and school performance by:
  - Ensuring parent representation on the SST
  - Flexibly scheduling parent/teacher conferences to ensure attendance
  - Including parents at Prevention Team meetings, school safety teams and other standing teams and committees
  - Scheduling parent orientation meetings
  - Scheduling parent meetings for review of CMT, CAPT and/or other assessment results as appropriate as well as for the development of action plans to address deficiencies.
3. The Bridgeport Public Schools, with the involvement of parents, will conduct an annual evaluation of the content and effectiveness of the parent involvement policy. The evaluation will include identifying barriers to greater participation by parents in parental involvement activities (with particular attention to parents of students who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background). The school district will use the findings of the evaluation about its parental involvement policy and activities to design strategies for more effective parental involvement, and to revise, if necessary (and with the involvement of parents) its parental involvement policy.

This evaluation will consist of regular parent surveys conducted by the Parent Center Office in conjunction with the district and school improvement planning timeline. Data gathered will be disseminated to parents and appropriate changes and or modifications will be made to the parent involvement policy implementation process.

4. The Bridgeport Public Schools will build the schools' and parents' capacity for strong parental involvement, to improve student and academic achievement, through the following activities described below:

**Parent and Community Involvement (Cont'd)**

- a. The school district will provide assistance to parents of children served by the school district or school in understanding topics such as the following:
- the state's academic content standards
  - the state's student academic achievement standards
  - the state and local academic assessments including alternate assessments
  - how to monitor a child's academic progress
  - how to collaborate with teachers and other school staff members

Activities will include but not be limited to Open Houses, Parent Teacher Conferences, Budget Review Meetings, School Improvement Team Meetings, Parent Forums, etc.; and will ensure that all information is delivered in various formats and, whenever practical, in a language parents understand.

- b. The school district will, with the assistance of its schools, provide materials and training to help parents work with their children to improve their children's academic achievement, such as literacy training, and using technology, as appropriate, to foster parental involvement. These activities will include but are not limited to the following:

- Institutes that include job readiness and technology training for parents
- School-based literacy and math nights
- School-based family literacy activities
- Parent as Partners Program

- c. The school district will, with the assistance of its schools and parents, educate its teachers, pupil services personnel, principals and other staff, in how to reach out to, communicate with, and work with parents as equal partners, in the value and utility of contributions of parents, and in how to implement and coordinate parent programs and build ties between parents and schools by training staff in the areas of Cultural Sensitivity, School Improvement training with a focus on parent involvement, and programs on developing Effective Parent Communications Techniques.

- d. The school district to the extent feasible and appropriate, will coordinate and integrate parental involvement programs, strategies and activities to encourage and support parents in more fully participating in the education of their children by centralizing and coordinating all parent activities with the Coordinator/Facilitator of Parent Centers who will develop internal protocols for planning parent involvement activities throughout the district.

**Parent and Community Involvement (Cont'd)**

- e. The school district will take the following actions to ensure that information related to the school and parent programs, meetings and other activities, is sent to the parents of participating children in an understandable and uniform format, including alternative formats upon request, and, to the extent practicable, in a language the parents can understand.
  - All communications (which may include but are not limited to newsletters, posters, flyers, correspondence, television and radio spots, Cable Access Channel, website) will be done in English, Spanish and other languages as practical.

**Community Relations****School Community Associations****Parent Organizations**

The Bridgeport Board of Education recognizes that parent involvement in the educational process is a necessary ingredient of success. As a means of encouraging parent involvement at the school level, every school should have an official parent group.

The Board recognizes school-community groups such as Parents/Teachers/Students Organizations (PTSO) and Parent Advisory Councils (PAC) as integral parts of the school community which can promote better educational programs.

## **Community Relations**

### **School-Community Associations**

#### **Parent Organizations**

The definition of an official parent group is a group which represents the parents of students in a particular school. Parents shall include grandparents, guardians, and designated care providers of children.

It shall be the responsibility of the school principal to ensure that the school has an official functioning parent group. The principal shall:

1. Encourage parents to establish and participate in an official parent group.
2. Work with parents to organize such a group if one does not exist.
3. Serve in an advisory capacity to that group.
4. Permit the use of school facilities for parent group meetings.
5. Submit a listing of parent group officers, including their addresses and telephone numbers, to the superintendent by October 15 of each year.

The following regulations apply to a school's official parent group.

1. The parent group should conduct meetings on a regular basis throughout the school year. The parent group shall function as an independent body in regard to funds, meeting dates, meeting agenda, etc. The role of the principal is an advisory one only.
2. If the members so choose, the parent group may affiliate with an umbrella organization such as the Parent Teacher Association.
3. Officers of the parent group shall be chosen by the group's members. It is suggested that the selection of officers take place in the spring so that the new slate of officers is ready to start the school year in September.
4. To ensure that parent groups function independently from the school administration, to increase parent participation, and to avoid any possible conflict of interest, the president of a school's parent group should not be an employee of that particular school.
5. The president of the parent group shall serve as the representative to the monthly meetings (during the school year) between the superintendent and parent group presidents from throughout the city. If the president is unable to attend these meetings, he/she should designate another parent to serve as an alternate representative.

## **Community Relations**

### **School Volunteers**

The Board of Education recognizes that volunteers can make many valuable contributions to our schools. The Board endorses a volunteer program in schools subject to suitable regulations and safeguards. Appropriate recognition of volunteer services shall be made by the Board and school district administration.

Annually, principals shall submit a list of all regular volunteers in the district (chaperones on field trips, aides, library and classroom volunteer assistance, grandparents, assistance at athletic events, field days, etc.) to the Superintendent of Schools.

**Community Relations****Educational Foundations**

The Board of Education is committed to maintaining excellence in education and pursuing resources to enhance educational opportunities for all students.

The Board recognizes that members of the community are often willing to make voluntary contributions that will provide needed additional funds and resources for the District and opportunities for District students.

The Board supports foundation allocations that serve the students of the District and all District schools equitably and enhance their educational opportunities.

## **Community Relations**

### **Visits to the Schools**

The Board of Education and staff of the school district welcome and strongly encourage members of the community and other interested persons to visit the schools.

The Superintendent shall establish regulations which:

1. Encourage school visitations.
2. Provide for appropriate hospitality for visitors.
3. Channel expressions of approval and constructive criticism to the appropriate administrator, then to the Superintendent of Schools who will share the information with the Board.
4. Ensure that public visits will not hinder the educational program.
5. Require all visitors to register in the principal's office upon arrival at the school.

Although Board of Education members are encouraged to visit schools independently, they have authority only in regularly called meetings of the Board of Education, or when delegated specific tasks by specific Board of Education action.

## **Community Relations**

### **Visits to the Schools**

In accordance with Board policy, the public is encouraged to visit the schools and to participate in community related school activities.

There shall be a sign posted at a designated entrance instructing all visitors to report to the main office.

Visitors shall be signed in and out of the building at the designated door or the school office.

The principal makes the final decision on the circumstances and conditions of visits with staff and/or students. However, any reasonable request shall not be denied.

## **Community Relations**

### **Loitering or Causing Disturbance**

All visitors must register in the office of the school principal. Staff members should be alert to the possibility of unauthorized visitors and promptly report any concerns to the principal or designee. Any person shall be considered loitering on school grounds when he/she loiters or remains in or about a school building or grounds, without any reason or relationship involving custody of or responsibility for a student or any other license or privilege to be there.

### **Trespassing**

Trespassers shall be defined as (a) persons who have not been authorized by the school principal or designee to be in the school building or on school grounds and (b) students on external suspension who reenter school property without authorization.

All school doors and school entrance ways, including driveways, are to be posted with an official warning against trespassing and announcing the intention to prosecute any and all trespassers.

The police shall be called when individuals ignore the posted warnings.

### Entrance and Exit Doors

All doors to school buildings are to be locked from the outside and only one door will be designated as the official door for entrance and exit from school buildings. All visitors desiring to enter school buildings shall enter through the designated door. After the student late-bell has sounded, tardy students must enter through the designated door. Students authorized to leave the school building prior to dismissal must sign out and exit through the designated door. If it is necessary to have more than one door open, such door(s) shall be monitored.

Designated entrance doors shall be locked from the outside and provided with a bell which shall ring in the office or other appropriate place. The security guard or other designated personnel shall answer the bell and inquire as to the nature of the visitor's business. Visitors shall be signed in and out of the building at the designated door or the school office.

It shall be considered a serious disciplinary offense for a student to open a door from the inside to an unauthorized visitor. Such policy shall be incorporated into the system's disciplinary code. Principals shall take the appropriate steps to inform the students and parents through assemblies and other appropriate means of the need to strictly enforce this rule for their own safety.

(cf. 1250-Visits to the School)

## **Community Relations**

### **Staff Participation in Community Activities**

The Board of Education encourages staff members to become active participants in the activities of the community in which they live so long as these activities do not interfere with their responsibilities as school district employees. This involvement provides a community with better understanding of educational programs and gains support of better education for every student. Such activity, however, is not required for initial or continued employment or advancement.

## Community Relations

### Political Activities of School Employees

School district employees are encouraged to assume the obligations of full political citizenship. Political activities must be confined to the hours away from school and employees may not be released from their regular duties and hours for political activity. In the classroom, teachers must put aside their personal and partisan political beliefs and activities and constantly strive to give a balanced presentation of issues. Further, employees shall engage in no political activities on school premises during school hours.

Subject to the above limitations, Board employees may take part in the management, affairs, or campaign of any political party.

A Board employee may run for elective municipal or state office and continue in the employment of the Board.

Employees who hold elective public office in other communities may be granted released time for the performance of official duties related thereto provided such released time:

1. Does not affect the ability of the employee to meet job requirements, and
2. There is no cost factor to the Bridgeport Public Schools for granting such released time.

The granting of released time for this purpose shall be determined by the Superintendent or designee. This decision shall be final and not eligible for appeal.

### Complaint Procedures

The following guidelines are established so that parents may bring their concerns to the attention of the most appropriate staff member:

1. If a concern emanates from a classroom situation, parents should first discuss it with the appropriate teacher.
2. If the parents feel that the discussion has not led to a satisfactory conclusion, they may proceed to discuss the concern with the building Principal.
3. Concerns about administrative actions or school related problems may be addressed directly to the building Principal.
4. Where past practice indicates involvement of the Assistant Principal, he or she should be seen, and their decisions may be appealed to the Principal.
5. Where concerns are about district policy or practice, the matter can be brought directly to the Assistant Superintendent or the appropriate Director. Also, matters not satisfactorily resolved at the school level may be appealed to the appropriate Assistant Superintendent or Director.
6. The Assistant Superintendent or Director shall attempt to resolve the concern as quickly as possible.
7. If the decision rendered by the Assistant Superintendent or Director is not deemed satisfactory by the parties involved, they may request a review by the Superintendent of Schools. The request for the review shall be submitted in writing.
8. If the decision rendered by the Superintendent is not deemed satisfactory by the parties involved they may request a review by the Board of Education or the appropriate Board of Education Committee. The request for the review shall be submitted in writing.

## **Community Relations**

### **Gifts to School Personnel**

The Board shall not prohibit the giving of gifts to teachers at Christmas or other times of the year. However, students shall be discouraged from giving presents to teachers. If a student does present a personal gift to a teacher, there should be no group display of it. If the teacher's attention is called to a desire of students to exchange gifts among themselves, a modest limit shall be set.

All employees of the Bridgeport public schools are subject to the City of Bridgeport's Code of Ethics, as it may be amended from time to time.

### **Gifts to School Personnel**

Information on the Board of Education's policy regarding gifts between students and teachers shall be stated in student handbooks on each level.

The explanation of the Board of Education policy should indicate the following:

1. Due to financial implications, the student could be placed in an embarrassing position with his/hers peers resulting either in isolation from others, or to avoid this, purchasing a gift which he/she cannot afford.
2. Teachers do not expect gifts. Rather, they feel rewarded when students work up to their potential.

### Law Enforcement Officials

Schools are responsible for students during school hours, which includes protecting each student's constitutional rights, assuring due process in questioning and arrest, and protecting students from any form of illegal coercion.

When police seek to arrest students on school grounds or during school activities, school administrators and staff will make every effort to insure that police do not enter hallways, classrooms or other student areas to make such arrests. Instead, except in the case of exigent circumstances threatening the safety of students or staff, administrators or staff members will themselves bring students to be arrested to a confidential and inconspicuous place and insist that police arrest students in such confidential and inconspicuous place so that disruption of the school environment is minimized to the extent possible.

When police are investigating possible criminal acts which occurred, or may have occurred, on school property, or while under the jurisdiction of the school district or that involve students as potential perpetrators, victims or witnesses, they may question students at school when the following procedures are observed:

1. Students will be questioned as confidentially and inconspicuously as possible.
2. An attempt will be made to notify the students' parents or guardians so that they may be present during the questioning except where to do so would unreasonably delay or interfere with the integrity of the investigation. The school principal, or his/her designee, will be present. Parents or guardians who are not notified in advance will be notified as soon as possible after questioning has taken place.
3. Preferably, the officer doing the questioning will wear civilian clothes.

Because of the many support services which local law enforcement agencies provide to the schools, staff, and students, the Board of Education supports the best possible relationship with those agencies consistent with district responsibilities to protect legal rights of staff and students.

The Superintendent of Schools is directed to establish lines of communication with local law enforcement agencies to effect necessary cooperation toward ensuring the security of the school facilities, the safety of students and staff, and for better student education about law enforcement agencies.

#### **Notification of a Student's Arrest**

Pursuant to the requirements of PA 94-221, whenever the superintendent receives oral or written notification from the local police department or state police that a student was arrested, for a Class A misdemeanor or a felony he/she shall maintain the written report in a secure location and the information in the report shall be maintained as confidential in accordance with section 46b-124. The superintendent may disclose such information only to the principal of the school in which the student is enrolled or the supervisory agent of any other school in which the student is enrolled.

The principal or supervisory agent may disclose such information only to special service staff or a consultant, such as a psychiatrist psychologist or social worker, for the purposes of assessing the risk of danger posed by the person, other student school employees or property and effectuating an appropriate modification of such person's educational plan or placement for disciplinary purposes. Such information with respect to a child under sixteen years of age shall be confidential in accordance with 46b-124 and shall only be disclosed as provided in this section and shall not be further disclosed.

#### **Questioning Students at School**

Under normal circumstances, parents or guardians should be notified in advance that a student will be questioned by a police officer at school and given an opportunity to attend the questioning. Principals or their designees should also attend. All questioning should take place as confidentially and as inconspicuously as possible.

Under some circumstances, however, notification to parents or guardians that police will question a student may unreasonably delay a police investigation and thereby diminish the likelihood that a perpetrator may be apprehended or a crime may be prevented. In such cases where time is of the essence, principals should make students available for questioning at the earliest possible time, and notify parents or guardians after the fact.

In other circumstances, notification to parents or guardians that a student will be questioned may interfere with the integrity of the investigation itself, such as where the student is potentially the victim of, or witness to, a crime that involving a family member or family friend. In such cases, parents and guardians should not be given advance notice that the student will be questioned, and should not be given the opportunity to attend the questioning. Principals should notify parents and guardians after the questioning has taken place.

#### School Police Cooperation

This regulation is intended to balance the needs of school and police officials. The reduction of ambiguity and confusion in how these officials interact will provide an optimal environment for education while ensuring that the public safety needs of the school and community are adequately met.

Generally, police should be notified immediately of any crime. Police will make every attempt to minimize distractions or disruption of school routines during the performance of their duties. There may be instances where the transgression is so slight that the school administrator can resolve the issue himself/herself. Examples of crimes that fall into this category are theft of pocket change, minor vandalism, or minor physical altercations in which there is no injury or pain inflicted upon either participant.

### Sexual Offender Registration Notification Policy

Pursuant to Public Act 09-199 which became effective on September 1, 2009, the Department of Public Safety is required to provide email notification to the Superintendent that a registered sexual offender resides in the school district or plans to reside in the school district. For purposes of this policy, a sexual offender is defined in Connecticut General Statutes § 54-250 through § 54-261 and is required per the statutes to register on the state's sex offender registry.

In order to minimize the possibility that a released and registered sexual offender may come into contact with students in the district, upon receipt of notification from the Department of Public Safety, the Superintendent's office will maintain a list of registered sexual offenders within the school district and the list will be available for review at the parents/guardians' request. At the beginning of each school year, the Superintendent's office will provide written notice to the parents/guardians of all students registered in the school district regarding the means to access the public information list of registered sexual offenders in the school district through the online registry [www.ct.gov/dps](http://www.ct.gov/dps) or at the local police station during normal business hours. The written notice will also remind parents/guardians that the Superintendent's office maintains a log of all notices that it receives from the Department of Public Safety pursuant to Public Act 09-199 and that parents/guardians are welcome to review the log during normal business hours.

The Board of Education believes that the safety and welfare of its students is of the highest priority. Accordingly, it encourages parents/guardians to use these valuable resources to educate themselves as to registered sexual offenders residing in the school district.
