

Mobile Device Setup- Bridgeport Schools

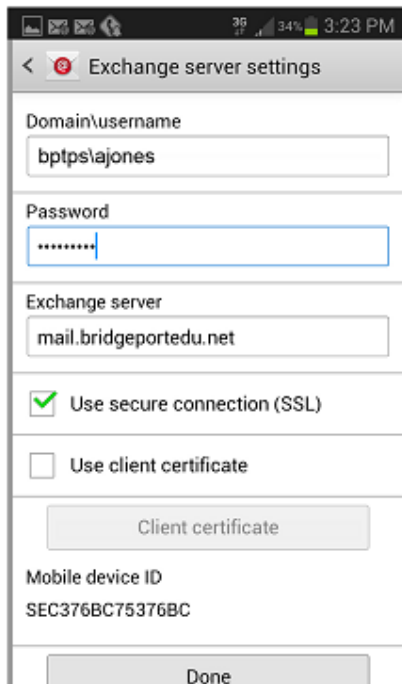

MOBILE DEVICES

- 1) Once your mail account is on the new server, you will need to reconfigure the mail settings (Exchange Active Sync) settings on your mobile device. Note: You will likely need to DELETE the previous Active SYNC settings – then add a new account.
- 2) Different cell phones and tablet models have different steps to set up mail. Remember you are setting up “Outlook Active Sync”, “Corporate E-Mail”, “Microsoft Exchange Active Sync” or similar wording. If having problems, go to your provider’s web page for detailed setup information on your particular device.

The table below has the settings needed to setup your account:

	<u>OLD</u>	<u>NEW</u>
Exchange server:	webmail.bridgeportedu.com	mail.bridgeportedu.net
Domain:	bridgeportedu	bptps
Use secure connection (SSL):	ON	ON
POP3 and IMAP:	Not available for BOE E-mail	Not available for BOE E-mail
